

ONAP DDF, 11-14 June 2019

Release E Architecture

Stephen Terrill

What to prioritize?

Release El alto Principles

- El Alto: Reducing technical backlog
- No Major Architectural Changes expected

Brainstorming: Architecture Release E Focus topics

- Finalize the Architecture Documentation
- Do we need an architecture Review:
 - Well, we should check the produced architecture document
 - Add to the Architecture documentation an "interface catalogue" view.
 - Interface compatability and flexibility
 - In particular model changes impact the interfaces.
