Ericsson
Welcome to beautiful Stockholm!!!
High-level 5G vision

Non-limiting access to information and sharing of data ...

... anywhere and anytime ...

... for anyone and anything ...

... supporting multiple new use cases and deployments
Paradigms at Ericsson

Today Open Source is represented across all our products
Growing into our DNA
Maturity of open source projects

Gartner Hype Cycle

- Technology Trigger
- Trough of Disillusionment
- Slope of Enlightenment
- Plateau of Productivity
- Peak of Inflated Expectations

VISIBILITY

TIME
Making a product out of Open Source

- Risk Assessment
  - License
  - Security
  - Trade
  - Quality

- Add to our Product
  - Product number
  - Integration
  - Verification
  - Maintenance
  - Support

- Ship to Customer
  - Copyright holders
  - License text
  - Source obligation
How do we see ONAP

ONAP as a vision

ONAP as a de-facto functional standardization

ONAP as a reference implementation
Our commitment to ONAP

Best of breed animals to drive ONAP (like for example...)
Looking ahead

Open source will continue to be an important piece of our software development

Industry will continue to seek new areas to innovate via open source

The need to collaboratively establish new open source projects to address new business opportunities
But please...

Don’t repeat errors of the past!!!
None of the errors of the past!!!

From now on, I want you to use open source software for everything we do. It's free.

I'll be right back.

It's an emergency. I think he's been reading.

We know you have a trade publication in here. Hand it over and no one has to get hurt.
Hack away!!!
And don’t forget to have fun!
