

12/20 LFN Dec 2020 Report

LFN IT Summary - Dec 2020

Job counts

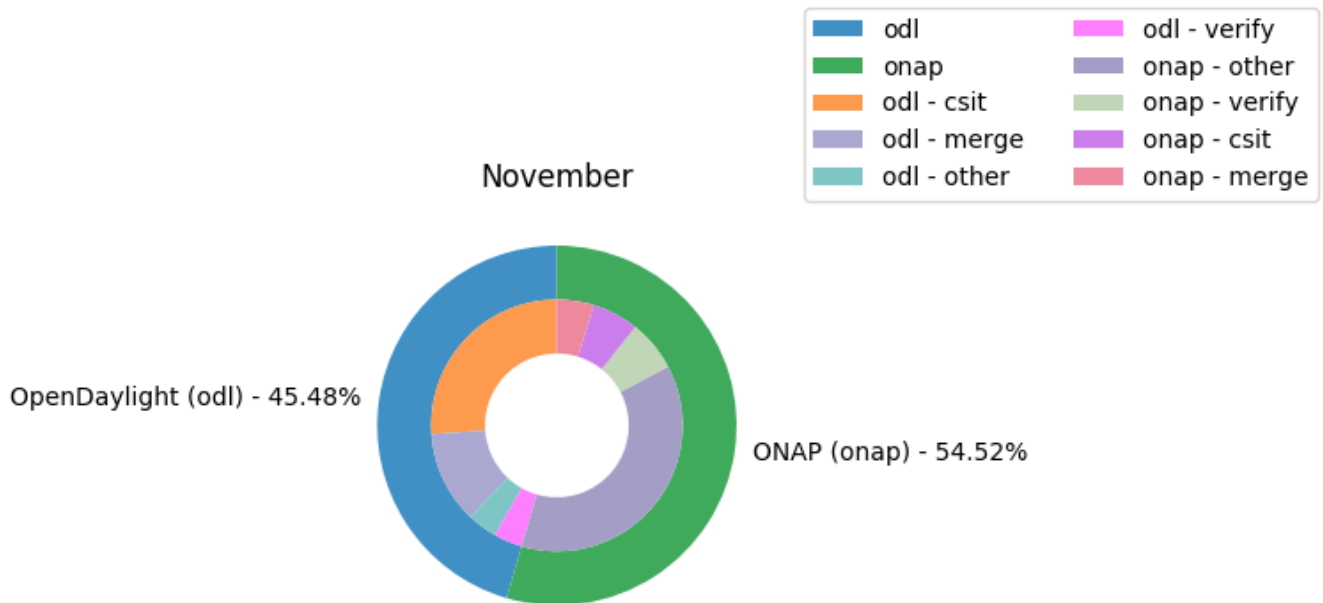

November

December

Job costs

Key Takeaways:

- ODL had 53.21% of the total job costs this month, overtaking ONAP again with csit as the highest job category cost.
- Caveats:
 - New Feature of Global Jenkins Job Builder provides build data where available (work in progress)
 - Job counts are an indication of how much change happened to the code bases
 - Total costs are based on cost data returned from cloud compute resources used for the duration of a job
 - Only ODL and ONAP are included for now, as their standard tooling provides the best coverage. We are looking into ways to include more projects in the future.
