Anti-Trust Policy Notice

- Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

- Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at http://www.linuxfoundation.org/antitrustpolicy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

Code of Conduct

- The Linux Foundation and its project communities are dedicated to providing a harassment-free experience for participants at all of our events, whether they are held in person or virtually. Linux Foundation events are working conferences intended for professional networking and collaboration within the open source community. They exist to encourage the open exchange of ideas and expression and require an environment that recognizes the inherent worth of every person and group. While at Linux Foundation events or related ancillary or social events, any participants, including members, speakers, attendees, volunteers, sponsors, exhibitors, booth staff and anyone else, should not engage in harassment in any form.

- For the complete Code of Conduct, please see https://events.linuxfoundation.org/about/code-of-conduct/

The Pale Blue Dot

"To me, it underscores our responsibility to deal more kindly with one another, and to preserve and cherish the pale blue dot, the only home we've ever known."

~Carl Sagan
