2021 ONAP Priorities

ONAP TSC

@catherine.lefevre@intl.att.com

2021 TSC Priorities

TSC Focus – Proposals:

- Define/Implement new TSC Composition
- Implement New Release Cadence Strategy – Target: 3 Major Releases
- Implement Recommendations from Project Maintenance Task Force
- Pursue our CNF/Cloud Native Roadmap + 5G
- Identify/Implement ONAP Enterprise/Vertical Market Use Case
- Promote “What We Have Done” (Webinars, Trainings, Demos, Certifications) & “What We Collaborate with Others” & Rewards
 - Rework ONAP added-values Message
 - Refocus on ONAP MVP (Definition, Development, Integration, S3P, Release, Doc, Operational Readiness, etc.)
 - Document “How to Operate ONAP” and Share Best Practices across companies?
- Secure Integration activities (People, Environment)
 - Increase Test Automation (Use Cases, Features, etc.)?
 - Resume E2E Load/Performance/Stress Testing?
- Optimize ONAP Deployment – CNCF Recommendations?
- Engage TSC members as liaison(s) with other LF projects, Open source communities, SDOs
- How to attract new contributors (Doc, Integration, etc.)

() Items added/reviewed during the session*

Next Steps:

#1 Agree and prioritize the TSC Focus - proposals

#2 Identify TSC Member who will lead the agreed proposals
