Anti-Trust Policy Notice

- Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

- Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at http://www.linuxfoundation.org/antitrustpolicy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

Code of Conduct

- The Linux Foundation and its project communities are dedicated to providing a harassment-free experience for participants at all of our events, whether they are held in person or virtually. Linux Foundation events are working conferences intended for professional networking and collaboration within the open source community. They exist to encourage the open exchange of ideas and expression and require an environment that recognizes the inherent worth of every person and group. While at Linux Foundation events or related ancillary or social events, any participants, including members, speakers, attendees, volunteers, sponsors, exhibitors, booth staff and anyone else, should not engage in harassment in any form.
- To report an issue, please contact Emily Ruff (eruff@linuxfoundation.org)
- For the complete Code of Conduct, please see https://events.linuxfoundation.org/about/code-of-conduct/

Remote Participation

LFN Developer & Testing Forum

- **Provided on a “best effort” basis only all week**
  - Zoom bridges have been assigned to all of the session rooms
  - Connectivity and ability to hear what is going on in the room is not guaranteed
- All virtual track sessions are viewable in Adriane 1
  - There will be a dedicated laptop hooked up in the room
  - If the laptop is not on the Zoom bridge someone in the room will need to rejoin the bridge from that laptop
- We have a few Bluetooth speakers we can loan out, but if you borrow one we assume you can figure out how to use it

We do NOT have the budget for a hybrid event this week. LFN Staff is not your tech support team.

Room Assignments: Tuesday - Thursday

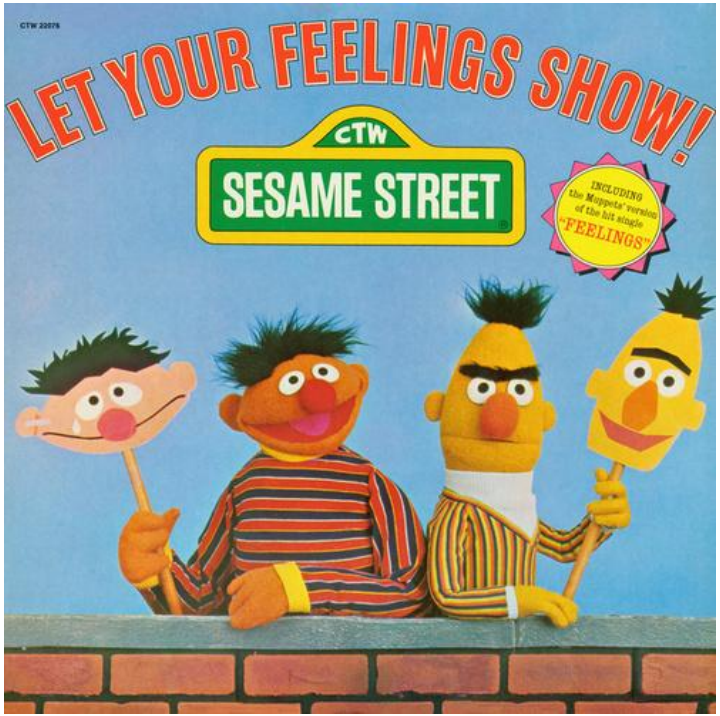
Now for some sentimentality…..



Have you been half asleep and have you heard voices?

Who do you play for?
