# Success Framework

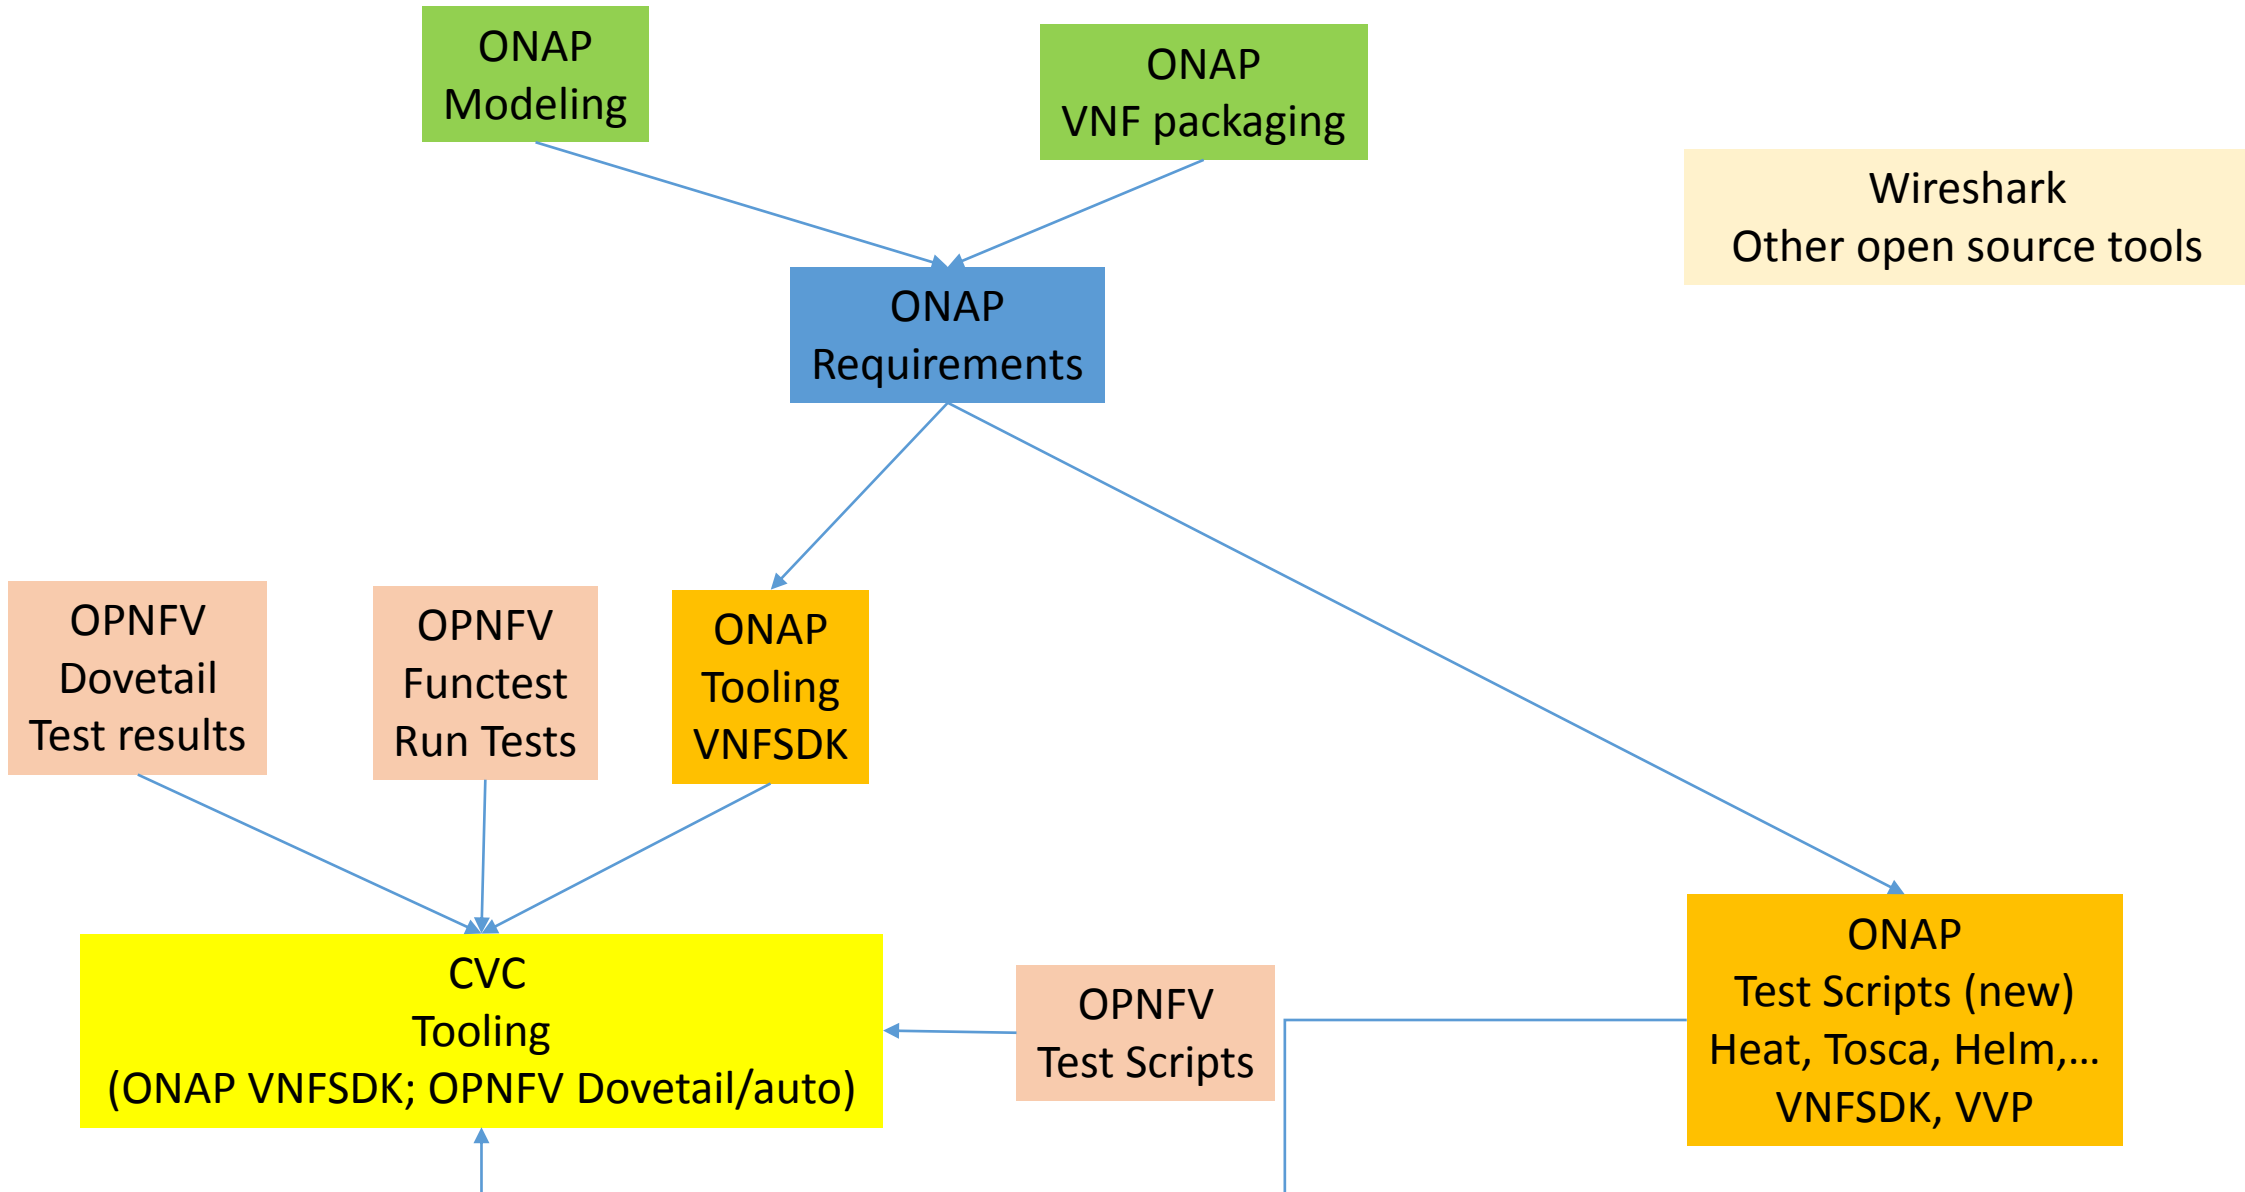

## Problem:

- User business value on tests not clear
- EUAG consolidated request and timeframe
- Tests not timely

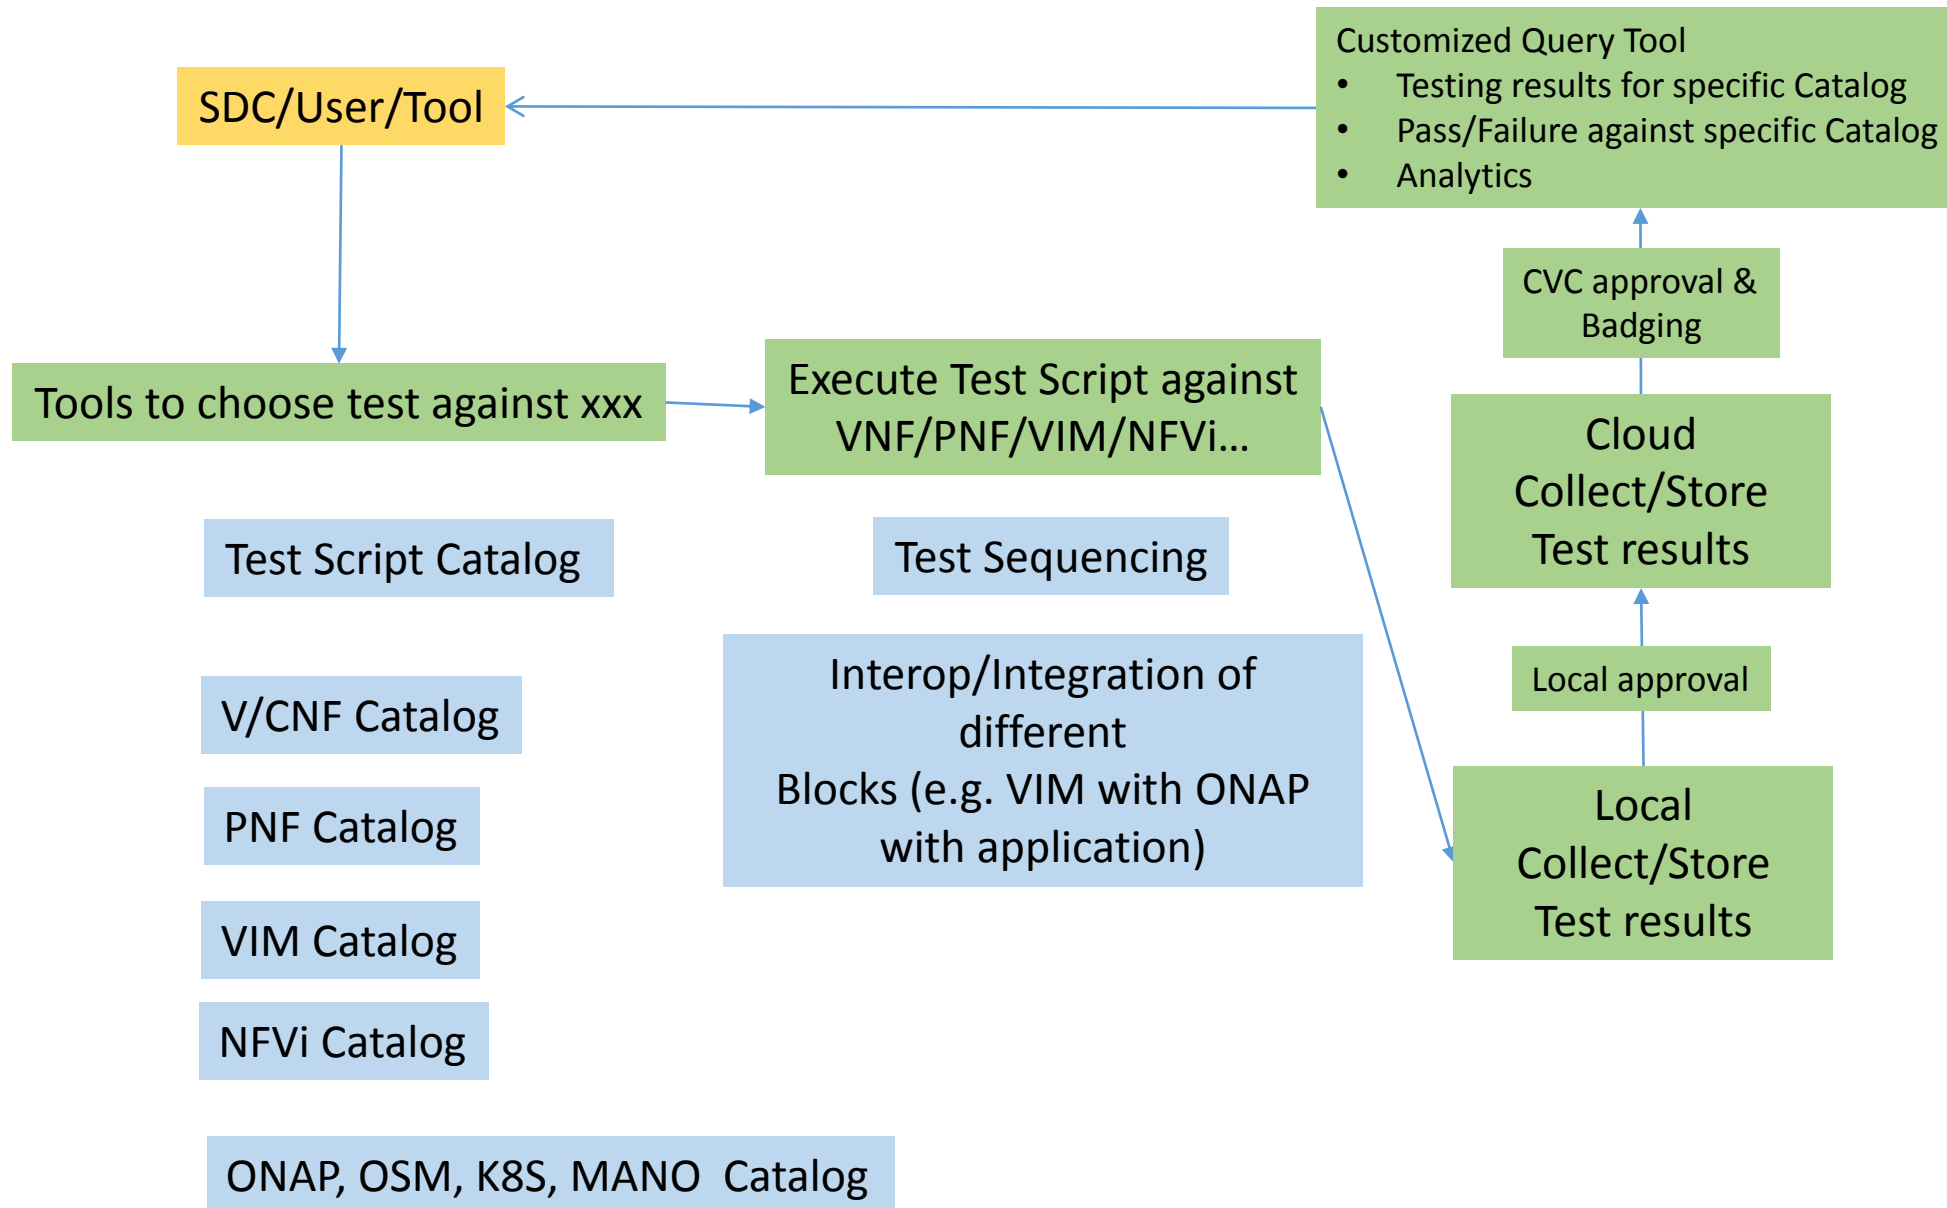

## Ideas on Solution:

- EUAG test priorities delivered with Use Case Community dates
- EUAG tests become entrance into the carrier's labs
- Paid validation to encourage business ecosystem which will be incented to deliver test in a timely manner

# Procedure Workflow

# Next Steps

- Heather to map ONAP/OPNFV tools to this workflow
- Category of testing priorities
- EUG kickoff
- Still need to work Interop/Integration details
- Create a specific use case to test the workflow
