2022-01-13 - ONAP: ONAP data provider presentation and short demo

Topic Leader(s)
- Michal Jagiello
- Piotr Stanior

Topic Description
30m Michal Jagiello
Demonstration of ONAP data provider to create resources in declarative way.

Topic Overview
We have been working on a tool that can help ONAP users to create resources without using any API, but describing them in YAML format files. We would like to present the results of our work.

Slides & Recording

Demo & live session - we are going to present the result and how to run our tool, but in the mean time Piotr Stanior will present the architecture.
