

EUAG 2020-07-28 Meeting notes

Date

28 Jul 2020

Attendees

LFN Staff: [Jim Baker](#) [Kenny Paul](#) [Brandon Wick](#)

Committee Members: [Atul Purohit](#) [Lei Huang](#) [Ahmed El Sawaf](#) [Javier Ger](#) [Ken KANISHIMA](#) [Yoshihiro Nakajima](#) [Ryan Hallahan](#) [Fernando Oliveira](#) [Marc-Alexandre Choquette](#) [Brian Freeman](#)

Guests: [Scott Blandford](#)

Proxies:

Agenda

- Start the Recording
- [Antitrust Policy](#)
- Agenda Bashing (Roll Call, Action Items (5 minutes))
- General Topics
 - 5G adoption white paper proposal [Atul Purohit](#)
 - ONAP requirements process [Lei Huang](#)
 - Expand beyond ONAP focus [Jim Baker](#)
 - Any other announcements

Minutes

5G adoption white paper proposal - [Atul Purohit](#)

- LFN Governing Board (GB) asked about gaining insight into 5G from the membership.
- [Atul Purohit](#) shared a proposal for producing a 5G whitepaper.
- A request from [Arpit Joshipura](#) for EUAG to work with LFN Marketing & James Crawshaw to discuss 5G
- 3 key focus areas for introductory guides from LFN coming from the MAC
 - Cloud Native
 - Edge
 - 5G
 - **Intro Guide to 5G - just released** <https://www.lfnetworking.org/publications/2020/07/20/5g-networking-an-introduction/>
- a detailed EUAG white paper on 5G should be complementary to the intro guides
- [5G Paper Proposal Draft 0.2.pptx](#)
- Feedback on proposal
 - [Ahmed El Sawaf](#) Not covering relationship with TIP and Open Core?
 - Should bring a solid usecase into our white paper bringing in the opensource mindset
 - [Lei Huang](#) A survey could be basis for challenges and use cases - Volunteering to produce survey
 - [Scott Blandford](#) 5G covers a lot of area - is there a specific focal point or ways to limit the scope?
 - While LFN addresses a limited amount of 5G features, the white paper is not constrained to just LFN pieces
 - Proposals: Operation deployment perspective, Operator view of 5G
 - [Ryan Hallahan](#) What is the objective? Lead LFN projects? Direct new project focus? What is the desired outcome? @jav
 - Plenty of open ended 5G challenges white papers/blogs out there, so little value in that.
 - [Javier Ger](#) should take entire ecosystem into account - perhaps not a specific company name - but cover relationships
 - Similar to a request from [Heather Kirksey](#) some time ago that covers how LFN touches the different aspects of the carrier space
 - Possible an edge use case may be appropriate
 - Possibly a set of white papers - a very broad 5G, then a followup based upon detailed survey data

EUAG requirements process from experience with ONAP - [Javier Ger](#) and [Lei Huang](#)

- ONAP Requirements Subcommittee has asked for some template work to align input
- [Proposal for CSP Priorities for ONAP - v3.pptx](#)
- Gap in the process exists
- [Atul Purohit](#) reminds folks that not all members of the EUAG are participants or even members of LFN not everyone sees what is going on behind the scenes.
- for ONAP the Requirements Subc will be presenting the input to the ONAP TSC - potential exists for this model to be propagated to other LFN Projects
- [Javier Ger](#) the level of requirements detail from the EUAG is much higher level than the details needed in Jira ticket
 - We can compare our input for the Guilin release to compare to what format the ONAP Requirements Subc would like to see

Expand beyond ONAP focus

- Discussions with [Arpit Joshipura](#) on how to grow EUAG participation in other LFN Projects and gain participation of additional carriers.
- [Ahmed El Sawaf](#) Recruit operators that are in CNTT but not in EUAG

EUAG Chair election

- [Atul Purohit](#) moving on from Vodafone.

- Election for a new Chair ends on the 30 Jul 2020 Ballots previously distributed.

Action items

- ✓ Atul Purohit upload the white paper proposal to these minutes 28 Jul 2020
- ✓ Jim Baker Create a survey for determining the 5G white paper topic with results by 11 Aug 2020
- ✓ Lei Huang upload the requirements process slides to these minutes 28 Jul 2020
- ✓ Jim Baker Will communicate the outreach activities to the EUAG before 11 Aug 2020
