Minutes

Mac Update

- [Developer and Testing Forum event report](#) from Prague recently released.
- ONES has been postponed until the fall.
- We would like to discuss what we would like to do for the 2-day developer events.
 - We are still monitoring the situation for the June Developer & Testing Forum. We will make a final decision on 25 Mar 2020

Virtual event planning

- [Scot Steele](#) CNTT is in a pivotal situation. Would like to proceed with an event that was aligned with the original event timing. +1 [Beth Cohen](#)
- [Heather Kirksey](#) asks the TAC members to please go in and edit [LF Member Company Events Travel Policy](#)
 - [Frank Brockners](#) notes that some of that information may be considered company confidential
- WHO daily reports <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/situation-reports/>
- April event-
 - CNTT, OPNFV and ONAP are interested in retaining an event in some fashion. ODL will confirm participation by next week (currently anticipate to participate only in the June event).
 - [Heather Kirksey](#) We would like to try to keep to our original schedule if possible.
 - ONAP preference is 3 hours per day, for 3 days, held between 13:00 UTC and 16:00 UTC on April 21, 22 & 23
 - CNTT preference 11:00 UTC to 15:00 UTC April 21, 11:00 to 16:00 on April 22, 11:00 UTC to 17:30 on April 23
- Possible options
 - Keep to the original schedule and meet during the same time zone for the event.
 - Because the event would be virtual we would need to spread the time out - Prefer this approach, but it will not be ideal, but I think more people will be able to attend.
 - 3-4 days for 4 hours each day.
 - Alternatively have some 1 hour long meetings spread out over 1 week.
 - [Beth Cohen](#) Need to be VERY focused on what the sessions will cover. Leaders have to take a larger role in keeping things on track.
 - [Frank Brockners](#) suggest one joint community day
 - [Heather Kirksey](#) Will it be difficult to have an adjusted schedule for some people for an extended time schedule to attend the virtual events?
- What will the event look like?
 - Zoom sessions can be augmented with IRC for communities that use that
 - Depending on the topic, we may use the webinar feature to have a bit more control over the mic
 - [Beth Cohen](#) Suggested that we have at least 2 assigned individuals for ensuring that minutes are properly recorded.

- [Jonathan Beltran](#) suggests "branding" the event differently to set expectations
- Regular meetings should be canceled during the event.
- [Heather Kirksey](#) suggests a virtual program committee to set the criteria/ground rules/training
- [Scot Steele](#) We believe that we need to get used to more virtual events.
- [Beth Cohen](#) It is cyclical, but yes we do need to get better at virtual events and being creative on how to best keep participants engaged.
- [Al Morton](#) suggest a voluntary forum for hallway conversations.
- Need to identify the Virtual Event Programming Committee
 - We will take an effort to use the existing program committees
 - Volunteers
 - [Lingli Deng](#)
 - [Scot Steele](#)
