Test Catalog

Test Catalog Focus Area

The CNTI Test Catalog focus area operates under the aegis of LFN. The scope of this focus area is to develop vendor neutral tests for validating cloud native behaviors and best practices in networking applications and infrastructures. We collaborate with the Best Practices and Certification focus areas who work on developing the best practices and the definitions for cloud native certifications.

Key areas of focus

- Developing and maintaining cloud native networking tests that can be consumed by downstream projects
- Supporting end user questions and providing assistance to help increase the number of consumers of the tests in the catalog
- Collaborating with the Best Practices and Certification focus areas

Not in scope for this focus area

- Identifying or defining best practices
- Defining certifications

Meetings held every Tuesday at 8 AM PT
