

# 2024-05 - Nephio: Porch in R3

## Short Description

60m, Open discussion moderated by [Liam Fallon](#) and possibly [Tal Liron](#) (but I haven't asked him yet)

Porch, with its current architecture, will be at the heart of Nephio for at least the next release and possibly for some following releases. There are issues in Porch that require attention for those upcoming releases, so consolidation of the current Porch component is required in R3 and possibly for longer. This issue describes the consolidation activities on Porch in Nephio R3 (to be released in May/June 2024).

## Topic Overview

[This issue in the Nephio Github](#) outlines some of the challenges for Porch in R3 and can frame the discussion.

## Session Type

	Interactive technical presentation and/or capability demo
	Pre-Recorded technical presentation and/or capability demo
	Live / hands-on technical training
X	Community process, governance or collaboration development
	Real-time troubleshooting, bug-scrub or similar
	Other (please describe)

## Slides & Recording

 **YouTube**  
Following the event session recordings may be uploaded to [our YouTube Channel](#) at the full discretion of LFN staff.
