2019-02-22 Meeting notes

Date

22 Feb 2019

Attendees

- Casey Cain
- Christophe Closset
- Brian Freeman
- Ed Warnicke
- Jack Morgan
- Kenny Paul
- David McBride
- user-20f1f
- Thanh Ha (zxiiro)
- Vratko Polak
- Jacob Smith
- Edward Vielmetti
- Ed Kern

Minutes

- Discussed about moving parts of the build chain and cost aspects, potential benefits, Jenkins VS new tools.
- Need to document thought process, assess opportunities for savings, need data to be able to compare.

Discussion items

Time	Item	Who	Notes
	OPNFV CI	David McBride	Has implications for OVP. • long term future is moving the community towards xci. https://docs.opnfv.org/en/latest/infrastructure/xci.html • Dovetail program would need to be migrated to xci. https://wiki.opnfv.org/display/dovetail • xci project is in need of developers

Action items

- [x] user-20f1f look into paying for a circleci plan for a POC
- [x] Ed Warnicke provide user-20f1f with information required for circleci and broker introductions
- [x] Christophe Closset onboard a project to circleci for testing a POC
- [x] @ Ed Vielmetti provide information on gitlabci to Phil
- [x] user-20f1f ook into paying for a gitlabci plan for a POC
- [x] Casey Cain Follow up on:
  - [x] Need to get estimate of "build minutes" by category to understand potential costs for "AsAService" costs to compare. category we think is gerrit, jenkins, nexus
  - [x] Need estimate of current costs for VM based gerrit/jenkins/nexus tool chain
- [ ]
