- [Jim Baker](#)
- [Alessandro Gerardo D'Alessandro](#) [Brian Freeman](#) [Ryan Hallahan](#) [Atul Purohit](#) [Marc-Alexandre Choquette](#)

## Agenda

- Start the Recording
- [Antitrust Policy](#)
- Agenda Bashing (Roll Call, Action Items (5 minutes))
- Telecom Italia LFN priorities
- Dublin deployments - [onap-users@lists.onap.org](mailto:onap-users@lists.onap.org)

## Minutes

- Telecom Italia ONAP priorities

- Top priority - Maturity - complexity of ONAP, especially in closed-loop design/operation
- Second priority - Documentation
- Third priority - Use Case Scenarios - specific interest in 5G automation, BBS, CCVPN
- Update on CNIT - review the [notes and recordings](#) from the face to face
- Next steps on the ONAP priorities consolidation [Atul Purohit](#)
  - Some things are consumption issues - separate concerns
  - Atul to present the consolidate list at next EUAG 27 Aug 2019
- Demo candidates for ONS - votes closing end of day tomorrow 31 Jul 2019
- ONS EU event planning
  - Need agenda/meeting plan - set this for discussion at Aug meeting 27 Aug 2019
- Consumption model for ONAP - potential topic for ONS f2f
  - Is there work on this topic in other forums?
  - Perhaps a consumption model white paper - is this the same as a deployment model?
    - Other projects may have done deployment notes
    - Example case studies from end users - Orange/Bell Canada are doing some deployment works
- EUAG as a GB advisor
  - What are the logistics of advising the board?
  - Does EUAG envision future versions of LFN products?
  - [Jim Baker](#) to pull together a preso on the LFN GB/committees and how EUAG influences directions?
- EUAG has been focused in 2019 on ONAP, what about the other LFN projects?
  - What should EUAG do going forward?
    - Individual participants tend to have siloed interest, it has been a challenge to collect enough broad interest to be pan-LFN
    - By limiting the scope to ONAP and becoming effective on ONE FRONT would then create a template for influencing other projects
