## Minutes

### OVP Hacking Track for VNF Vendors at next LFN DDF/Plugfest

- [Presentation](#) from [Amar Kapadia](#)
- Training on the tools and the review process
- Should we have planning calls during October / November
- Assigned Champions: Amar, looking for 1 more champion
- Set aside time for check in during each CVC call.
- DDF/Plugfest is aiming for December 3-6, but details are still being planned.

### TOSCA VNF Validation Updates

- Walked through some of the updates to the VTP API to support the validation testing, including how to get the results and debug information, etc.
- TOSCA VNF validation will be possible with the EI Alto release, but the process will be run manually through scripts or API.
  - Final confirmation by next CVC meeting.

### HEAT VNF Validation Updates

- Core testing is completed, working on the results format alignment (log files, sub-tests, removing reliance on dovetail.log, requires portal changes), HEAT team is working on those changes
  - Dovetail team is going to work on portal changes to support the above change.

### OVP Release Planning

- Aiming for release by end of 2019 calendar year
- Testing Ready: as EI Alto release (September 30)
  - TOSCA
    - Test definition needs to be submitted to VNFRQTS
    - [Steven Wright](#) will create the Jira tickets to track this addition
    - [Need a TOSCA-specific test case here: <https://onap.readthedocs.io/en/latest/submodules/vnfrqts/testcases.git/docs/OnboardInstantiateTests.html>](#)
    - Test case mapping is here: <https://onap.readthedocs.io/en/latest/submodules/vnfrqts/testcases.git/docs/Appendix.html>

- HEAT
- Documentation Updates:
  - Test Requirements Published
    - Update the OVP VNF portal to point to the "read the docs"
  - Testers Guides Published - Done by end of October
    - We will need to work on how / where this will be published
- Beta Testing:
  - TOSCA VNF - Champion by Rabi
  - HEAT VNF - Champion by Trevor
- Launch / Announcements:
  - Press Release - Aim as a release out of the DDF/Plugfest (early December), with inclusion of vendor names and service providers that supported the testing efforts.

## ONS Europe 2019 Planning

- Presentation slots & top level messaging
- Revisit during next week.

## Any other business
