TAO main page

Please add your requests for support in the left side of the following table. The TAO will work on assigning the assisting project and contacts on the right side

#	Requesting Project	Date created	Description of issue	Contact Person	Link to wiki or mailing list with further description of the issue	Assisting project	Assisting Contact Person	Current status (e. g. opened, inprocess, resolved, etc.)
1	*example* - ONAP	Sep-5-2019	*example* - How to reduce footprint by consolidating instances of similar database technologies. Components that use the same database technology, can share a single cluster with separate schemas and credentials	*example* -Ranny Haiby	*example* - ONAP Footprint Reduction			*example* -Opened
