- Guests: Scott Blandford

Discussion items

- ONAP Consumption model white paper draft Atul Purohit
    - based on input from service providers - articulate different consumption models from a governance perspective
    - asking for EUAG collaboration on the white paper - will distribute via email
- EUAG CSP priorities for ONAP
    - Based on EUAG member feedback
    - Will distribute via email
- EUAG advisory to the GB - how does the advisory process work?
    - EUAG decides to inform the board
    - Jim Baker get the topic on the GB agenda
    - Typically the GB gets a technical update - specific topics are addressed as driven by EUAG
- CNTT has 15 service providers engaged in the process
    - Would like to get review/validation of the process
    - Understand how CNTT interacts with other LFN initiative
- Dev teams interact with the EUAG to get feedback on the quality/docs/etc.
    - Perhaps routine check ins with the other LFN projects
    - let EUAG give direct feedback to the projects
- What help could the EUAG provide to the CNTT effort? Rabi Abdel
    - Discuss CNTT roadmap and adoption strategy
    - Marketing/messaging of the CNTT vision - use EUAG to vet the discussion points to align messaging to vendors
    - Should we allocate a 30 minute block to CNTT topics?
    - ?Why is ONAP the orchestrator referenced in the CNTT work? Saad Ullah Sheikh
        - OSM+ (direct implementation of ETSI MANO) and ONAP overlap - both competing open source implementations (Atul Purohit)
        - CNTT is MANO agnostic Rabi Abdel
        - OSM should be exposing SOL0001- 0005
        - What does the LFN recommend - some hybrid of OSM/ONAP? Saad Ullah Sheikh
        - CNTT not related
    - CNTT help needed in the areas of:
        - Governance
        - Adoption
        - Recruitment
        - Technical roadmap
    - Would like a doodle poll to see if there is a better time for the EUAG meeting Jim Baker to create...
