Marketing Metrics Adoption (MMA) - Combined Work Stream

- As of 2/5/2020 the following workstreams have been consolidated per the CNTT Restructure.

Scope

- - Recruiting, Engagement, & Adoption
 - Recruit operators & suppliers to bring diverse perspective and contributions into the community
 - Drive membership engagement activities to address community resource demands
 - Engage industry leaders with Common NFVI value proposition to drive adoption rate
 - Drive adoption roadmap with VNF Vendors
 - [Ch08: Recruiting, Engagement, & Adoption](#)
 - Marketing & Communications
 - Identify and pursue opportunities to market community services through publication of white papers, press releases, business cases, & media events
 - Track community external speaking engagements
 - Create | maintain community messaging to ensure alignment in external communications
 - Collaboration tools and eco-system
 - Business | Technology Metrics
 - Define, create, & publish business value metrics based on ROI, Time to Market, etc.
 - Define, create, & publish success metrics for community processes and deliverables
 - Define, create, & publish contribution rates within the community
 - Define, create & publish adoption rates within the Industry
 - [Ch10: Business & Technology Metrics](#)
 - All resource from above work streams have been consolidated into this WS.
