## Discussion items

### Review of ONAP priorities including new input from STC

### White paper proposal [Atul Purohit](#)

- Using the ONAP white paper as a template, Atul suggested a white paper to outline ONAP consumption models
- LF volunteered support [Brandon Wick](#)
- Proposed timeline
  - Draft by late Nov/early Dec
  - Target delivery by DDF/Plugfest mid-January
- Target audience
  - CSP - ops and architects and strategic planners
- Maybe answer "Why ONAP" and reference other open source projects (lightly - don't engage other projects needing sign-off on paper) [Brandon Wick](#)
- Consumption model section help [Brian Freeman](#)
  - Also engage [Marc-Alexandre Choquette](#) from Bell Canada as they use a subset
- Contribute to Purpose and service provide experience [Cecilia Corbi](#)
- Identify the industries challenges [Saad Ullah Sheikh](#)
  - Also consumption models and use cases

### CNTT workstreams

- 4 work streams and EUAG involvement - defer topic to next meeting

### Hands-on onboarding of new developers on ONAP by next ONS 20 Apr 2020 [Arpit Joshipura](#) [Atul Purohit](#)

- Suggest 3 videos each 5min or less
  - How to set up a lab for ONAP
  - Create wiki/Jira issues/consensus from other PTLs
  - How to write code, create repos and check in
- Feedback
  - Need to check back with Arpit to make sure topic alignment [Atul Purohit](#)
  - Align with CFP for ONS
  - Items 2&3 - generic open source guides [Brian Freeman](#)
  - Item 1 - alot of different approaches in the ONAP labs [Brian Freeman](#)

## Action items

- ✓ [Atul Purohit](#) to post the white paper process and proposed outline for community review/contribution
- ✓ [Jim Baker](#) to form break out calls and help converge contributors and content for whitepaper
