

# EUAG 2019-11-19 Meeting notes

## Date

19 Nov 2019

## Attendees

**LF Staff:** Kenny Paul Trishan de Lanerolle

**Committee Members:** Atul Purohit Brian Freeman Fernando Oliveira @javier ger Ken KANISHIMA Lei Huang Marc Fiedler Rabi Abdel Ryan Hallahan Vincent Colas Saad Ullah Sheikh

**Guests:** Bertrand Souville Scott Blandford

## Agenda

- Start the Recording
- [Antitrust Policy](#)
- Agenda Bashing (Roll Call, Action Items (5 minutes))
- General Topics
  - White Paper Progress – 30 min
  - CNTT Plan – 15 min
  - Fred from Verizon has requested an EUAG slot for ETSI alignment – 5 min
  - Prague plan – 5 min
  - AOB – 5 min

## Minutes

- **White Paper Progress**
  - [Atul Purohit](#) provided a read out of status of white paper. [EUAG whitepaper workspace](#)
  - Updates made to ONAP sections of white paper.
  - Waiting for feedback from [Beth Cohen](#) in ONAP consumption model section of white paper.
  - ONAP consumption model is waiting for 2 break out calls.
  - [Atul Purohit](#) taken action to share available AT&T models, to the extent possible.
    - Discussion ensued around the different consumption models.
    - Need help with [Section 3 Consumption models](#), which are currently lean on content.
    - [Scott Blandford](#) shared a [slide on consumption models](#) and discussion ensued
      - What parts of ONAP are you using, how are you using them, how is ONAP ingested/integrated by the operators, how do you integrate with release cadence, how is ONAP customized by operators to run in their own environments
      - How are operators organized to support and enhance ONAP in production
      - [Ryan Hallahan](#) these were just our ideas. It is difficult to see things from an outsider's perspective.
      - [Atul Purohit](#) asked for additional perspectives
      - [Fernando Oliveira](#) think having these things notes along w/ pros/cons
      - @Javier Ger think this is good overall. It is difficult for us as there are no local integrators. There may be other geographies that are in similar situations
      - [Scott Blandford](#) the perspective of the doc is in a sales/marketing context. Not just gratuitous sharing of operator info.
- **EUAG CNTT Chapter**
  - [Atul Purohit](#) shared his slides
  - Provided an overview of CNTT (Standardizing different NFV infrastructures in an NFV world)
  - Can EAUG assist to raise awareness of CNTT. Develop an EAUG CNTT Chapter.
    - Stakeholder map for CNTT (CSPs and vendors)
    - Supply and demand side aids/artifacts for service providers
    - N-W-E-S Interactions
  - Several members of the EUAG are also participating in CNTT
  - Can we look at using a similar model to what we have done with ONAP?
  - [Rabi Abdel](#) What artifacts / requirements come from CNTT and how do they go to downstream?
  - Is there impact to other projects?
  - [Rabi Abdel](#) Identify the relationships between CNTT and other LFN projects/initiatives
  - @Javier Ger may need to do something similar to SDOs
- **ETSI Alignment Taskforce for EUAG**
  - [Fernando Oliveira](#) provided overview how ONAP integrates into Verizon environments and requirements for supporting ETSI standards, VNF packaging, managing etc..
    - How do we align ETSI with ONAP. [ETSI-Alignment Task Force-EUAG.pdf](#)
    - **ASK to EUAG:**
      - can we get participation into the ETSI MANO requirements into ONAP?
      - can you provide resources for architecture, developments and testing?
- **Prague Developer & Testing Forum:**
  - **Please register:** <https://events19.linuxfoundation.org/events/lf-networking-dcf-pluginfest-2020/>
  - **Please ask your VNF vendors to also attend and participate in testing**
  - Target to provide draft of white papers to MAC within the next couple weeks
  - Attendance at the event unclear - could have an informal meeting

- Dev forum could be the deadline /target for release of the whitepaper
