- [OVP 2019.12 Release](#)
- [Any other business](#)

Minutes

OVP Submissions

- ZTE Lab results
 - Have received two +1 reviews for the results (Mika and Georg).
 - Recommending to schedule lab presentation of lab application to this group for December 2 meeting.

OVP 2019.12 Release

- TOSCA Update
 - VTP results translation into OVP portal format
 - Good progress creating an additional CLI command (python script) export the results into the Dovetail tar file format
 - Updating the ONAP Wiki for how to generate the results to the OVP format
 - Python script will be part of Frankfurt, but could be "installed" or used on an EI Alto release for the certification testing
 - [Slides](#) for how the "ptyon scripts" work are here.
- Documentation
 - Lincoln will create a branch to work on the VNF documentation updates on the Dovetail repo: <https://github.com/opnfv/dovetail>
 - HEAT and TOSCA teams should clone this branch and collaboration on the documentation requirements for the 2019.12 release.
