Chat Log

07:02:40 From Marc Fiedler : #info, Marc Fiedler, DT

07:03:20 From Brian Freeman (AT&T) : #info Brian Freeman, AT&T

07:04:02 From Lingli : #info Lingli, CMCC

07:26:13 From Brian Freeman (AT&T) : Agree , that is why we wanted Bell and Orange sections - even AT&T doesnt use all of the ONAP modules

07:28:26 From Marc Fiedler : Unfortunately I have to leave now. BR Marc

07:29:25 From Beth Cohen (Verizon) : I think laying out the different options I think will help break down the barriers.

07:29:38 From Marc-Alexandre Choquette (Bell) : BTW, I'm on - couldn't get to un-mute button fast enough, but I'll add to it. Our consumption model, experience, guiding principles in consuming ONAP, etc.

07:30:19 From Lingli : Me too

07:30:52 From Marc-Alexandre Choquette (Bell) : but definitely feel free to comment on what kind of content you would think is relevant - so that we have different perspectives/models, but also have somewhat similar content structure given they are within the same section.

07:39:43 From Lingli : I could try to make a questionnaire for you to fill. So that we would be able to get similar content structure from CSPs.
