Attendees

1. [Lincoln Lavoie](#)
2. [Rabi Abdel](#)
3. [Heather Kirksey](#)
4. [Kodi Atuchukwu](#)
5. [Brian Whittle](#)
6. [Fernando Oliveira](#)
7. [Kanagaraj Manickam](#)
8. [Patric](#)
9. [steven stark](#)
10. [Trevor Lovett](#)
11. [Weitao Gao](#)
12. [Dan Xu](#)
13. [Yangguanzhi](#)
14. [Victor Gao](#)
15. [Georg Kunz](#)
16. [Ryan Hallahan](#)
17. [Trevor Cooper](#)
18. [Jim Baker](#)

Task Report

Task report

Looking good, no incomplete tasks.

Agenda

- Task report
- [TOSCA VNF Validation Status Updates](#)
- [HEAT VNF Validation Status Updates](#)
- [OPNFV \(What is expected from who & when\)](#)
- Any other business

Minutes

TOSCA VNF Validation Status Updates

- [Kanagaraj Manickam](#) presented an overview of the TOSCA user story and development.
- Current work will integrate the VTP with SDC, to allow tests to automatically run when on boarding a new VNF.
 - Team will work on a plan to expose a CLI that can run the VTP tests directly (compliance & validation). This should be completed by Monday, August 12.
- Output format:
 - Planning to create the results archive at the same "place" where the "script" was run (see above).
- Current work plans are to support both the open source VNF Manager (part of VFC) and a vendor specific VNF Manager
 - Test scripts will "handle" registration of the vendor specific VNFM, before starting the testing.
 - If a vendor specific VNFM is used, how does this impact the "badge" as the VNF does require the VNFM to run?
 - A badge / listing will list specific requirements for the VNF (i.e. a vendor specific VNFM abc with version xyz is required).
 - TOSCA output will capture this information in a way that can be parsed by the Dovetail portal.

HEAT VNF Validation Status Updates

- Still working on items for last week (things are still moving forward).

OPNFV (What is expected from who & when)

- Per the current user stories (HEAT & TOSCA) results will no longer be generated by Dovetail tool chain, what specific results format is required by the portal.
- Request Dovetail provide a results requirement / template / information model / interface definition. This could be maintained as part of their project and would be useful as the scope / usage of the portal continues to expand.
- Dovetail meets are Wednesday mornings, 9am EDT (<https://wiki.opnfv.org/display/meetings/Dovetail>)

- ☒ Weitao Gao to work with Dan Xu to discuss / prepare the above documentation.

Any other business

- Next Face-to-face CNTT meeting is 2 days following the ONS Europe events, details.
- Discuss OVP release planning during next week's meeting.
