- [Toshiyasu Wakayama](#)
- [David McBride](#)
- [Michael Fix \(AT&T\)](#)

Topics

- Walk on and Agenda bashing
 - Iruya Release OPNFV laying groundwork for CNTT in terms of work done in Airship, Functest
 - GSMA RM PRD to release PRD to public for ONES EU release.
 - **Action Item** to define 'done', i.e. timing of hand off of GSMA and GSMA for publishing.
- Prague Success and 2020 Expectations
 - Established HL buy-in on need to establish mode of operations
 - Release Management coming into full focus - Baldy release, RI-RC, etc.
 - OVP, OPNFV alignment, Launches will be scope
 - Potential WS alignment changes/reorganizing/appeal for contributors
 - Go forward
- Prioritize Prague Action Items
 - RLM Action Items
 - Baldy, Future, Other, or Cancel
 - Assign 30/60/90/180 day targets
 - WS unassigned Action Items
 - Propose assignment of 17.1 and 17.4 to RLM WS
 - Assign 30/60/90/180 day targets

Notes

- Iruya is last release under OPNFV legacy. All new releases on hold until OPNFV/CNTT joint plan can be developed.
- Starting PR drive for Iruya release
- Groundwork laid in Iruya - i.e. Airship, Functest, others? enhancements
 - **Action Item** - straw man some communications, get CNTT leadership approval - follow up on / one or two bullet points each [Jonathan Beltran](#)
 - **Action Item** - i.e. Functest/X-testing made ? contributions to the development RI - [Cedric Ollivier](#)
 - **Action Item** - i.e. Airship made ? contributions to the development of RI - [Sridhar Rao](#)
- See updates to: [Baldy - CNTT Governance Actions](#)
- See proposed updates to: [Baldy - CNTT \(WS To Be Assigned\) Actions](#)
