Minutes

OVP 2019.12 Status

- Documentation update is in process
 - Tagging is now enabled on <https://opnfv-dovetail.readthedocs.io/en/stable-hunter/>
 - [Confusion about what are the exact steps for VNF program and NFVI program.](#)
 - [Same documentation are for NFVI as well as VNF.](#)
 - [Reviews on Gerrit to be done before end of this week.](#)
 - VNF documentation needs to be ported into RTD from the Wiki pages. Lincoln is taking a first pass at these changes, will need reviewers from the VNF teams.
- Portal Updates
 - Fixing code to point to correct versions of the documentation.
- VNF Testing Outcomes
 - Two VNFs have now completed testing successfully and will likely be the first submissions to the program, pending the portal being pushed live.
 - [What vendors they are.](#)
- ONES
 - LFN is planning press / announcements for the first VNFs to achieve the badge around the April event.
 - Idea to organize a hacking track for VNF testing during the ONES event, Lincoln to confirm with [Jim Baker](#) if this could work within the Unconference tracks.
 - LFN will also host demos in a booth on the show floor, and "live VNF testing" could be shown, along with the OVP process, and listings, etc.

OVP 2020.09 Planning

- [Tracking / status page](#) has been created for OVP 2020.09.
 - Date is still flexible, will need to track CNTT RC1 GA release.
 - [Rabi shard slides about the plan. \(will upload in the wiki page\)](#)

OVP Ph 2.0 (CNF)

- Kick off email is being drafted by Marc Price.
- [still waiting for the email to be drafted.](#)
 - [A meeting is setup in MWC to discuss this with Raukten.](#)

Any other business

- Call schedule
 - Proposal to drop to every other week schedule.
 - [Group is happy to stick with one meeting per 2-weeks.](#)
