Overview

The CNTT (Common NFVI Telco Task Force) launched officially in June 2019. Its mission is to define a common NFV Infrastructure to simplify the development and deployment of virtualized and containerized networking applications for the telecom industry.

GSMA and LF Networking are excited to announce that the next CNTT Technical F2F work shop is scheduled in Prague, Czech Republic. This meeting will be a great opportunity to advance the Reference Model work, continue to refine the Reference Architecture definitions, and address implementation considerations for OPNFV and the OPNFV Verification Program (OVP). This will be a hands-on meeting, so please come prepared to work and propose solutions.

As a reminder, the CNTT GitHub can be found here: <https://cntt-n.github.io/CNTT/>

The link to the GSMA and Linux Foundation agreement to support the CNTT initiative can be found here: <https://www.linuxfoundation.org/press-release/2019/06/linux-foundation-and-the-gsma-announce-partnership-to-further-align-nfvi-efforts/>

General Information

When

January 13th - January 16th, 2020 - 08:00 - 18:00 (Local Time)

Where

[Prague Congress Centre](#) , Prague, Czech Republic

Use [Entrance 5](#) to access the LFN conference area.

5. kvtna 1640/65, Nusle
140 00 Prague 4, Czech Republic
