- Manik Sidana (VoerEir)
- Petar Torre (Intel)
- Trevor Cooper (Intel)
- Toshiyasu Wakayama (KDDI)
- Liu Ying (China Mobile)
- Xu Yang (Huawei)

Agenda and Minutes:

- Agenda Bashing:
 - Reminder - RA2 is now one workstream
 - Backlog review - look to remove Backlog label from Issues that should help with Baldy release
 - RI2 has been approved by Tech Steering and Governance - add your preferences for weekly meeting time here: <https://doodle.com/poll/45iuub3wecqsq6ef>
- Project Review: <https://github.com/cntt-n/CNTT/projects/10>
 - Tom Kivlin to review the backlog and add any issues relating to ch2/3/8 plus general cleanup to the To-do list
 - FYI, the Baldy release plan scope is here: https://github.com/cntt-n/CNTT/blob/master/doc/tech/release_notes/baldy.md#reference-architecture-2-v10
 - FYI, the current state of each chapter is here: https://github.com/cntt-n/CNTT/tree/master/doc/ref_arch/kubernetes#overall-status
 - In summary, the intent is to get chapters 1, 2, and 3 to the level of "Dickering over the finer points" (from the [Bogo-meter](#))
- AOB
