

# 2020-02-20 - [CNTT - RA2] - Meeting Agenda and Minutes

- Attendees:
- Agenda and Minutes:

## Attendees:

Please add your name in here:

- Tom Kivlin
- Prabhu Balan (Vodafone)
- Gergely Csatai (Nokia)
- Rabi Abdel (Vodafone)
- Toshiyasu Wakayama (KDDI)
- ramki krishnan (VMware)

## Agenda and Minutes:

- Walk-in items:
  - Ramki- scope: questions have come in about which Kubernetes repositories are in scope?
  - Ramki/Gergely/Frederick to prepare a PR (<https://github.com/cntt-n/CNTT/pull/1134>)
- Agenda:
  - How to deal with requirements that are must/should in the architecture, but optional for deployments?
    - Peter has raised [Issue #1048](#)
    - Option: I have a [PR prepared](#) with wording to potentially cover this this was agreed, and has been assigned to approvers
    - ~~Alternative Option: we add a section, or completely re-do the requirements section, to show a mapping between the NFVI profiles~~
    - ~~Alternative Option: we merge sections 2.2 and 2.3 so the RA2 requirements directly map to specific requirements from the RM~~
- Project Review: <https://github.com/cntt-n/CNTT/projects/10>
  - I have moved all ch2/ch3 and 'cleanup' issues from Backlog into To Do - we should focus on these to have PRs merged by M3 Milestone - April 3rd (six weeks)
  - Action to all: please add any Issues you would like to have dealt with **by close of business tomorrow - 21st Feb.**
- AOB
