

WS06: CNF Conformance (C. Category) Testing

Primary Owner:CNCF

Contacts: [Taylor Carpenter](#) [Olivier Smith](#) [Trevor Lovett](#)

Objective of workstream: Define the operational testing of CNFs by setting the priorities of testing and mapping out the sources of tests and outlining the gaps

Tasks:

- Understand the depth of the CNCF CNF conformance tests
- Map out the source of requirements
- Performance is not addressed by CNCF
- Interop requirements
- Create layers of test definitions.
