

# 2020 April Technical Event Schedule

If you haven't already, please register <https://events.linuxfoundation.org/lfn-technical-meetings-spring/>

Event Wiki Page LFN [2020 April Virtual Technical Event](#)

**EVENT SURVEY:** <https://www.surveymonkey.com/r/7NZWS73>

All sessions shown on schedule are accessible via the (experimental) Qiqo Chat: <https://n.qiqochat.com/events> OR via the zoom bridge shown in the track (column) header.

NOTE: If sessions run long, they can continue on the Overflow Bridge. You must reserve this bridge here: [Extra room for Ad Hoc Meetings](#)

## Day 1 - April 21, 2020

| Meeting Hallways           |             | ONAP - First session starts at 1pm UTC                                                                          |                    |                    |                    | OPNFV/CNTT                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                         |               |               |
