

2020-04-27 CVC Meeting Minutes

Attendees

1. [Lincoln Lavoie](#)
2. [Jim Baker](#)
3. [Ryan Hallahan](#)
4. [Tapio Tallgren](#)
5. [Heather Kirksey](#)
6. [Patric Lind](#)
7. [Kanagaraj Manickam](#)
8. [Serena Feng](#)
9. [Trevor Lovett](#)

Outstanding Action Items

Task report

Looking good, no incomplete tasks.

Agenda

- Task report
- [General Update](#)
- [Election Results](#)
- [2020.r1 Release](#)
- [Cloud Native Subcommittee](#)
- [Any other business](#)

Minutes

General Update

- LFN board will be reviewing / approving proposed charter this week.

Election Results

- CVC
 - Chair: Lincoln Lavoie
 - Vice-chair: Yan Yang
- Cloud Native Subcommittee
 - Lead: Trevor Lovett
 - Co-Lead: Rabi Abdel
- Thank you to our new leaders and to all those who accepted nominations.

2020.r1 Release

- [OVP2020.r1 Planning Page](#)
- Infrastructure
 - Field trials are starting to get underway
 - Need to work on getting participants engaged in these efforts, to the tooling is tested outside of the LFN "pods"
 - Test Coverage for RC-1 of the RA-1 / RM-1 is approximately 80% of mandatory (done, or work is officially in progress), 40% of the "shoulds" (done, or in progress)
 - <https://wiki.opnfv.org/pages/viewpage.action?pageId=56295456>
 - Tool chaining
 - Strategy for projects and repos to ensure tooling is easily accessible for end users.
 - Portal development
- VNF Badging
 - Work is largely complete for the Frankfurt ONAP release
 - Open Question, what should be captured for the "version number" in the results output for this release?
 - Within the code, the release / version should be encoded as "2020.r1," while the marketing and portal will translate this to the format of "year.month" to maintain alignment with past releases and the program.
 - **Update from [Trevor Lovett](#) : Badge version for Heat-based VNFs has been updated in VVP for the Frankfurt release to 2020.r1. This does not cover any updates to the TOSCA based VNFs. [Kanagaraj Manickam](#) Please ensure the TOSCA based test suite in Frankfurt references this new version.**
 - Pending:
 - Read the docs updates, etc.
 - **Update from [Trevor Lovett](#): Documentation update for Heat-based VNFs is now complete. OVP Portal can continue to reference the same page (<https://onap.readthedocs.io/en/latest/submodules/vnfrqts/requirements.git/docs/Chapter8/OPNFV-Verified-Badging.html>). No changes have been made to the TOSCA validation documentation. [Kanagaraj Manickam](#) please let me know if there are any updated instructions for TOSCA in Frankfurt.**
- Portal Updates
 - Dovetail project is presenting resource needs to the TSC tomorrow.
 - No changes to the VNF results output

- X-testing results processing will be the bigger lift within the portal.
 - OPNFV Test API was discussed during the LFN virtual meetings, call for developers
 - Test API / DB can provide a "at a glance" view of results

Cloud Native Subcommittee

- WS01 - Program Governance
 - [WS01: Governance/Structure/Marketing/Badging Process and Framework](#) - has the draft text for all of the existing OVP documentation, needs to be marked up with required changes for the Cloud Native Programs
- Next steps for sub-committee governance will be formalizing the reporting and alignment of the subcommittee, to avoid any duplication of work and reporting.

Any other business

- Next Meeting: May 11, 2020
- Programming committee for the June Virtual technical event is open
 - [2020 June Virtual Developer & Testing Forum](#)
 - Email [Heather Kirksey](#) or [Casey Cain](#) for additional information or to engage in the planning.
