2020-04-30 - [CNTT - RA2] - Meeting Agenda and Minutes

Toshiyasu Wakayama

- Attendees:
- Agenda and Minutes:

Attendees:

Please add your name in here:

- Tom Kivlin
- Bill Mulligan
- Peter Woerndle (Ericsson)
- Ulrich Kleber (Huawei)
- Pankaj Goyal (AT&T)
- Rabi Abdel (Vodafone)
- Gergely Csatari (Nokia)
- Trevor Cooper (Intel)
- Toshiyasu Wakayama (KDDI)

Agenda and Minutes:

- Antitrust notices
  - Linux Foundation Anti-Trust Policy Notice
  - GSMA Anti-Trust Policy Notice
- Walk-in items:
  - PR freeze this Friday for Baldy
    - Beth will then proof-read, followed by 2 day cooldown - can still open PRs, but they will not be merged until after Baldy release
    - Baldy will be a new branch, master will be the working branch
  - Virtual event review: https://etherpad.opnfv.org/p/4-2020_RA2_Deep_Dives
    - CNF requirements
- Agenda:
  - Project Review: https://github.com/cntt-n/CNTT/projects/10
    - Discussion on https://github.com/cntt-n/CNTT/pull/1532
      - Suggested to address issues (e.g. https://github.com/cntt-n/CNTT/issues/1499) post-Baldy as ch04 will be the main focus of that release
      - Action Point: discuss the approach in https://github.com/cntt-n/CNTT/issues/1499 to how to resolve the Multus v DANM debate (suggestion: describe the use-cases, create more requirements if we need, make the decision clear)
      - Action Point: create issue to develop content in "Gaps" chapter re. the ability to manage a multiplexer via a consistent mechanism / API

- AOB
  - Frederick Kautz - CNCF webinar on cloud native zero trust: https://youtu.be/TfnU1xD9EFY
