

2020-05-07 - [CNTT - RA2] - Meeting Agenda and Minutes

- Attendees:
- Agenda and Minutes:

Attendees:

Please add your name in here:

- Tom Kivlin
- Pankaj Goyal (AT&T)
- Trevor Cooper (Intel)
- Peter Woerndle (Ericsson)
- Ulrich Kleber (Huawei)
- Trevor Lovett (AT&T)
- Toshiyasu Wakayama (KDDI)
- Rabi Abdel (Vodafone)
- Al Morton (AT&T)
- Gergely Csatai (Nokia)

Agenda and Minutes:

- Antitrust notices
 - [Linux Foundation Anti-Trust Policy Notice](#)
 - [GSMA Anti-Trust Policy Notice](#)
- Walk-in items
 - CNTT webinar ideas
 - [CNTT Technical Webinar Topics](#)
 - June vConf ideas
 - Baraque release planning: [CNTT Baraque#ReferenceArchitecture2](#)
- Agenda:
 - Project Review: <https://github.com/cntt-n/CNTT/projects/10>
- AOB
 - Branch/release process: if we are creating PRs for new/improved content, we will label as On Hold until after the Baldy release takes place (new "Baldy" branch will get created). Bug fixes/typos/etc. PRs can be created but use the label "Bug" to identify it can be merged pre-release.
 - Taylor: lots of updates to the spreadsheet that is tracking the CNTT requirements following the big updates in the last week(s)
 - https://docs.google.com/spreadsheets/d/12EWZVvlumktXoywvmlYPR_DrU34e7Gk_rSED3VyCG4o/edit#gid=0
 - Q (Peter W): how is this work coming back into the regular review flow in GitHub. A: isn't yet, mainly covered in the various calls (RA2, RI2, etc.). Source of truth for CNTT requirements would be markdown files in CNTT repo. e2e integration would be hard.
