Agenda and Minutes:

- Walk-in Items
    - June vConference - RI2 sessions?
        - Maybe a joint session with OPNFV about leveraging Pharos lab?
        - Joint work session, half overview, half going through issues/roadmap/planning
        - Proposal submission due Jun 3rd - discuss potential CNTT/OPNFV joint topics
    - LFN Webinars - any topics / presenters?
        - CNTT Technical Webinar Topics
- Review previous action items:
    - **Everyone** think about June vConf and potential sessions for RI2
- Project review: https://github.com/cntt-n/CNTT/projects/27
- Bare metal provisioning of RI2 review
    - Get something up and running in the OPNFV labs?
    - we need pre provisioned nodes so it becomes a two step process
    - Reuse OPNV ansible playbooks to provision host OS
    - is there interest in relaunching XCI?
- AOB
    - Branch/release process: if we are creating PRs for new/improved content, we will label as On Hold until after the Baldy release takes place (new "Baldy" branch will get created). Bug fixes/typos/etc. PRs can be created but use the label "Bug" to identify it can be merged pre-release.
    - Baraque release planning: CNTT Baraque#ReferenceImplementation2
