- [Trevor Cooper](#) (Intel)
- [Al Morton](#) (AT&T)
- [Michael Pedersen](#) (Tieto, Intel)

## Agenda and Minutes:

- Antitrust notices
  - [Linux Foundation Anti-Trust Policy Notice](#)
  - [GSMA Anti-Trust Policy Notice](#)
- Walk-in items
  - <https://github.com/cntt-n/CNTT/issues/1341>
  - <https://github.com/cntt-n/CNTT/issues/1340>
    - Any interface added to a Pod should not break the Kubernetes API contract and should provide similar services
- Agenda:
  - [Trevor Lovett](#) : WS02 from CNOVP to present their analysis of CNF requirements
    - [CNF Requirement Analysis and Comparison](#)
  - June virtual meeting [topics review](#)
    - We do not need a specific deep dive on RA2
  - Project Review: <https://github.com/cntt-n/CNTT/projects/10>
- AOB
  - All RA2 specification are on high level. There are no configuration level details covered.
    - We should cover this by opening issues against the sections of Ch4 [Gergely Csatari](#) to open the issues

## Previous Actions:

[Tom Kivlin](#) to share recording links for the vF2F conference in April.

- Update: these are not showing in Zoom Recordings. [Tom Kivlin](#) to follow up with Jim/Scot.

## Meeting recording:
