LFN Cross Community demos and integration - TAC Whitepaper follow-up 2020-06-22

Date

22 Jun 2020

Attendees

Topic Leaders: Ranny Haiby

Overview

This is a brainstorming session. The LFN TAC Whitepaper proposed potential integrations between LFN projects. It is time to discuss how to make such integration happen. This session is intended for Subject Matter Experts from the LFN Projects, as well as end users who could provide real use cases to work on. The goal of this session is to come up with a plan for follow up work and assign roles and responsibilities.
