- Meeting Recording

Attendees

Please add your name in here:

- Tom Kivlin
- Georg Kunz (Ericsson Software Technology)
- Pankaj Goyal (AT&T)
- Michael Pedersen (Intel, CNF Testbed)
- Rihab Banday (Ericsson)
- Victor Morales (Samsung)

Agenda and Minutes

- Kuberef update

    - logistics - https://wiki.lfnetworking.org/display/LN/2020-07-01+-+%5BCNTT+-+RI2%5D+-+Meeting+Agenda+and+Minutes
    - Link to Jira - https://jira.opnfv.org/projects/KUB/issues/KUB-1?filter=allopenissues&orderby=created+ASC%2C+assignee+DESC%2C+description+ASC%2C+priority+DESC%2C+updated+DESC
    - Can we combine RI2/Kuberef meeting? Proposal to cover RI2-specific topics first, then Kuberef (so people can drop off if needed). No objections. Kuberef to be added to regular agenda.
    - Recap (vision):
        - Kuberef to take any *Implementation and deploy into OPNFV lab, and run the RC2 tests - focus on the integration points
        - Current activity:
            - TIP & CNF Testbed/Conformance looking at installing an implementation that covers RA2 requirements and will pass RC2 tests (e.g. Community Implementation)
            - Original BMRA-based approach is still progressing (Community Implementation), activities are being tracked in Kuberef Jira (see above link)
            - Kuberef focusing on the integration points (e.g. with CI/CD), whichever of those is used (or others)
            - RI2 should continue to watch/learn from those three CIs before focusing on a single choice for **the** RI2 at a later stage
            - Agenda for next week - review the table (criteria for choosing an installer) - Tom Kivlin to create/review Issues
            - Tom Kivlin to create RI2 issues to ask people to help in CNF Testbed / BMRA / Kuberef (i.e. defining requirements, identifying gaps in RA2, etc.)
            - Tom Kivlin to create visualisation to help explain and show interdepencies
- Project board review: https://github.com/cntt-n/CNTT/projects/27
- AOB

Meeting Recording

Topic: CNTT RI2 Kubernetes Weekly Meeting
Start Time : Jul 15, 2020 07:57

Meeting Recording:
