

2020-07-16 - [CNTT - RC2] - Meeting Agenda and Minutes

Attendees:

Zoom link: <https://zoom.us/j/92317903558>

Please add your name in here:

- Bill Mulligan (Loodse)
- Pankaj Goyal (AT&T)
- Trevor Cooper (Intel)
- Luc Provost (Intel)
- Taylor Carpenter
- Toshiyasu Wakayama (KDDI)

Agenda and Minutes

- Issue Review: <https://github.com/cntt-n/CNTT/projects/32#card-36881576>
 - Requirements PR <https://github.com/cntt-n/CNTT/pull/1797>
 - Moved into the RM, please comment there
 - Performance PR <https://github.com/cntt-n/CNTT/pull/1649>
 - Performance testing discussion here [Performance Testing Minutes](#)
 - Principles PR <https://github.com/cntt-n/CNTT/pull/1738>
 - Is it finalized? one more week
 - We can work on traceability and test case implementation in parallel
 - [Initial content of Kubernetes Traceability Matrix \(issue #1616\)](#)
 - CNTT RA-2 requirements (snapshot) and relationship to testing in different initiatives https://docs.google.com/spreadsheets/d/12EWZVvlumktXoyvwmlYPR_DrU34e7Gk_rSED3VyCG4o/edit
 - would be easier to start with a subset of requirements
 - spreadsheet may be slightly outdated after the refactoring (requirements snapshotted at commit [9b6f2199](#))
 - RA2 Ch04 will be written and it may impact us
 - Chat question: What open source frameworks support testing CNFs or K8s in addition to CNCF's CNF Testbed/Conformance
 - OPNFV tests CNFs and platforms. There are K8s test cases for K8s for example: <https://wiki.opnfv.org/pages/viewpage.action?pageId=29098333>
- AOB
- Beta testers and contributors wanted for CNF Conformance
 - [Signup form](#)
 - [Overview on beta test plan](#)
 - [Contributing guide](#)

Action Items:

- Bill Mulligan to write introduction for traceability
