Baraque Release

- Important Dates:
  - Sep 14: M3 (Freeze contributions)

Agenda and Minutes

1. Agenda Bashing
2. Antitrust Policy: https://r.lfnetworking.org/Antitrust%20Slide.pdf
3. Review Open Issues and PRs
   a. PR #1857/1858: The content of RAI Ch 8.2 is an OpenStack multi-cloud support gap and doesn't belong in RM.
   b. Password hardening: https://www.cisecurity.org/white-papers/ms-isac-security-primer-organizational-password-best-practices/:
      i. Implement complexity rules that:
         - Allow for a minimum password length of 14 characters.
         - Force passwords to contain uppercase and lowercase letters, numbers 0 through 9, and non-alphanumeric characters.
         - Do not allow repetitive or sequential characters (e.g. ‘aaaaaa’, ‘abc123’).
         - Do not allow context-specific words, including usernames and their derivatives.
      ii. Password policies should enforce:
         - a maximum password age of between 30 and 90 days; (Comment: maybe different for users, admin, systems)
         - a minimum password age in conjunction with a password history to limit password reuse. Without a minimum password age enforcing a password history is not effective.
         - acceptance of all Unicode characters and spaces.
4. Opendev Next week – no RA1 meeting on Monday August 10th
5. Review Actions Items List
6. AOB

Action Items

	Description	Due Date	Assignee	Status	Task In
1	E2E Review	Ongoing	Walter Kozlowski All	https://github.com/cntt-n/CNTT/tree/master/doc/ref_arch/openstack Ian Gardner to review RA1 Ch03 and Ch04	
2	Consistency of mandatory feature	TBD	Karine Sevilla Cedric Ollivier	Issue #1156 to be fixed in Baldy.	
3	Review auto-scaling		Pankaj Goyal	Issue #1052 Pankaj Goyal to contact Deepanshu Bhatia – he has removed himself. Should we continue to work on this issue? Ian Gardner will assign this to himself	
4	RA-1 Ch 02 align with Ch06		Karine Sevilla	RA-1 Ch02 and Ch06 cleanup is complete.	
5	Review Chapter 08 content and revise		Sukhdev Kapur	4 gaps moved to RM Ch10; 1 gap remaining in RA1 Ch08	
6	SFC			Issue #1080 closed; Issue #1019 remains open for tracking and discussions. Based on RM write-up on SFC, we will take further action	

7	SDN Issue		Cedric Ollivier Walter Kozlowski Sukhdev Kapur	Issue #1075 review Cedric Ollivier this 3 requirements could be removed or at least partially rewritten (SDN solution -> networking solution, SDN controller -> networking implementation, etc) Walter Kozlowski Sukhdev Kapur to correct requirements Walter Kozlowski has recommended that we remove ("comment out') SDN requirements until RM has defined them	
8	Enable 2 Reqts for Train		Cedric Ollivier	https://github.com/cntt-n/CNTT/pull/1782 – Merged. https://github.com/cntt-n/CNTT/pull/1783	
9	Functest across multiple releases		Cedric Ollivier	Cedric Ollivier to open an issue for discussion in RC1 and TSC Interactions CNTT / OPNFV: will Functest Jerma (Train) and newer only support Baraque or Baraque + Baldy? 1. update Jerma's test case descriptions as proposed in the PR updating RC1 to Train – TSC selected this option on meeting of July 15, 2020 2. or publish new Functest CNTT containers (cntt would become cntt_baldy + cntt_baraque)
