

2020-08-17 CVC Meeting Minutes

Attendees

1. [Lincoln Lavoie](#)
2. [Jim Baker](#)
3. [Yan Yang](#)
4. [Trevor Cooper](#)
5. [Trevor Lovett](#)
6. [Al Morton](#)
7. [Ryan Hallahan](#)
8. [Kodi Atuchukwu](#)

Action Items

Task report

Looking good, no incomplete tasks.

Agenda

- Task report
- [HPE Exemption](#)
- [Performance Testing Definitions](#)
- [Cloud Native Subcommittee Updates](#)
- [Any other business](#)

Minutes

HPE Exemption

- OPNFV TSC has approved and documented the exemption for the HPE OVP submission: <https://wiki.opnfv.org/display/meetings/OPNFV+TSC+Meeting+2020-08-11>
- Results / application have been submitted to the portal: bf5c5ab9
 - Review / Approval: Lincoln Lavoie, Yan Yang
- Need to update the SUT information, so we can point to the exemption documentation: <https://lists.opnfv.org/g/opnfv-tsc/message/6305>
 - Lincoln will tweak the entry in the database to add the reference to the exemption documentation and confirm with HPE.
- Request from OPNFV TSC to "pause" the 2019.12 NFVI badge, because of the errors and issues discovered by HPE.
 - ✓ Lincoln Lavoie to add a notice to the NFVI portal to list the suspension of applications for the 2019.12 badge and provide some indication a new release for 2020 is in process.

Performance Testing Definitions

- Pull request to CNTT was updated to the content agreed on the Wiki page, [TSC Glossary] Terminology definition for testing per issue #1495 #1649 <<https://github.com/cntt-n/CNTT/pull/1649>>
- Applies to all testing (RC 1 and 2), given this location in the Glossary.
- Goal to move away from performance thresholds, publishing quantitative results instead.

Cloud Native Subcommittee Updates

- Need to pin down a plan for the badges structure (i.e. CNCF vs CNTT, etc.). Need to ensure any badges / levels are easily communicated / understood by end consumers.
- [Trevor Lovett](#) will send out some proposed time slots for this discussion.
- Cross-community requirements gathering is still ongoing.

Any other business

- Next Meeting: August 31, 2020
 - We'll look to coordinate with the RC-1 trials that should be wrapping up about them to check in on the current status of the RC-1 work and xTesting, which should be driving the 2020.r1 NFVI badge.
