  Plan (October 13-15, 2020).
- Any other business

Minutes

HPE Exemption

- Results / application have been approved and been listed in NFVI portal https://nfvi-verified.lfnetworking.org/#/
- Have added the notice to the NFVI portal for the suspension of 2019.12 badge
  - "he OPNFV TSC has suspended the OVP2019.12 release for the Infrastructure Badge. Work is now focused on shifting the program to support the requirements developed within the CNTT RC-1 workstream. At this time, no applications for the OVP2019.12 badge will be accepted for review."

2020.r1 Release

- Dovetail portal updates
  - Kanag feedback he has proposed enabling results submission to dovetail portal over api in dovetail jerma release https://jira.opnfv.org/browse/DOVETAIL-801
  - Need the Dovetail team to finalize the development plan to support ovp overall requirements.
- ONAP Frankfurt
  - The ONAP Frankfurt Maintenance Release 6.0.1 are finalized on August 25. and addressed some fixes and updates accross ONAP projects.
  - VNF test related projects such as VVP VNFSDK are not involved, so test requirements can be based on Frankfurt or Frankfurt maintenance release.
- CNTT RC-1 Trials
  - According to the previous plan, at least one trial is aiming to complete by end of August (or first week of September).
  - **Follow-up action:** current status need to track which will affect 2020,r1 release in September.

Performance Testing Definitions

- [TSC Glossary] Terminology definition for testing https://github.com/cntt-n/CNTT/pull/1649
- Received comments, need minor changes and wait to be approved and merged

Cloud Native Subcommittee Updates

- Trevor Lovett will send out some proposed time slots for discussion about the plan for the badges structure (i.e. CNCF vs CNTT, etc.) to ensure any badges / levels are easily communicated / understood by end consumers.
- **Follow-up action:** Need to track the discussion status

ONES (Sep 28 - 30) and LFN Technical Community Meetings Plan (October 13-15, 2020).

- ONES - Proposed Sessions: (The topics and schedule has been published and no changes are allowed)
  - The Evolution of VNF/CNFI/NFVI Compliance & Verification: OVP 2.0 - Rabi Abdel, Vodafone & Marc Price, Matrixx (https://events.linuxfoundation.org/open-networking-edge-summit-north-america/program/schedule/)
  - If Rabi no longer participates, do we need to find substitute and what's the plan, need to confirm with Marc Price
  - It has been confirmed with ONES that we can substitute Trevor Lovett for the session. Marc and Trevor will support this now.
- LFN Technical meeting 2020 October Virtual Technical Event Topic Proposals#2020OctoberVirtualTechnicalEventTopicProposals-OPNFV/CNTTTopics-
  - No CNTT and OPNFV proposed topic now

- Planned session:
  - TBD

Any other business

- Next Meeting: September 14, 2020
