# Minutes 2Sept2020

## Attendees

Al Morton Mike Lazar Jason Hunt Emma Foley Bob Monkman Timothy Verrall Jim Baker Zygmunt Lozinski Casey Cain

## Notes

- Introductions
- Discussed first task of gathering input from other organizations - caution expressed by Bob Monkman to not wait too long for standards org to unify around a list as it will take too long
    - ☑ Jim Baker to check with Heather Kirksey on LF efforts and Linux Kernel

    - ☑ IETF is working on Best Current Practice document.  Here is version 4: https://tools.ietf.org/id/draft-knodel-terminology-04.html  Zygmunt Lozinskiwill try to find IETF contacts working on this to get the current status

    - ☐ Bob Monkman will check on ONF's efforts

- Discussion around how new terminology can be more technically accurate while avoiding biased language
- Bob Monkman will also bring this working group's outputs back into the MAC
- Discussion on candidate terminology to replace:
    - master/slave
    - blacklist/whitelist
    - blackbox/whitebox
- Meetings to be held every other Wednesday at 1400 UTC.
    - ☑ Casey Cainto schedule recurring meeting & Zoom bridge
