2020-10-15 - CNTT/OPNFV - RI2 Kuberef Updates

Topic Leader(s)

- Rihab Banday
- Georg Kunz

Topic Overview

Current RI2 Kuberef status, gaps, planning ahead

Slides & Recording

Minutes

- questions and comments
  - Cedric Ollivier
    - recommendation to run existing Jenkins jobs in parallel to Gitlab jobs
    - Cedric offers to help with Jenkins configuration
  - Cedric Ollivier: does Kuberef also take Cluster API into accounts
  - Cedric Ollivier: test results should be published to OPNFV test database

- Michael Pedersen has successfully deployed Kuberef on Packet

- Georg Kunz states that RI-2 is a prerequisite for CN OVP

- Cedric Ollivier states that Kubernetes end-to-end tests are tied to the specific version of Kubernetes
  - BMRA current deploys K8s v1.16 and the next release will support v1.18
  - RC-2 needs to list multiple Functest container tags and when running RC-2 the right container tags must be selected
