2020-10-13 - ONAP Control Loop Subcommittee

Topic Leader(s)

- Pamela Dragosh

Topic Overview

Subcommittee meeting to discuss Honolulu Requirements etc.

Slides & Recording

https://wiki.onap.org/display/Meetings/2020-10-13+Control+Loop+Sub+Committee+-+LFN+Technical+Meetings

Minutes

- Vijay Venkatesh Kumar will be able to demo current Self-Serve control loop DCAE-MOD work done in Guilin in the next few weeks. Will schedule as appropriately.
- Next week Liam Fallon will help discuss TOSCA PoC next steps
- Discussion on future work of Multi-Tenancy PoC, potential work in Policy Framework may be a big step towards supporting geo distributed Control Loops.
- Proposal for combining CLAMP/Policy - subcommittee thinks that should be brought to the Architecture subcommittee and TSC
    - Would a Control Loop project be a better fit vs moving unrelated code into policy project?
- Pamela Dragosh - will send an email to Orange to see if changing meeting time would help bring them onto the CL subcommittee
