

2020-10-13 - ONAP Control Loop in TOSCA Demo

Topic Leader(s)

- [Michela Bevilacqua](#)
- [Liam Fallon](#)

Topic Overview

Slides & Recording

[Control Loop in TOSCA_Virtual Event Oct 2020_final.pdf](#)

[Control Loop in TOSCA_Virtual Event Oct 2020 Recording](#)

Minutes

The presentation has been followed by [68 persons](#).

Some slides has been shared about background, overall scope of the PoC in Rel G, next step in Rel H

The PoC has been progressed

Time was enough for some interaction with the attendees sharing questions about:

- 1) Control Loop DT catalogue implementation
- 2) REST API implementation and TOSCA format
- 3) Use of Clamp in the PoC
- 4) Possibility to reuse a CL Template for the instantiaiton of multiple CL instances

As additional reference has been shared the [TOSCA Defined Control Loop PoC page](#) where TOSCA files have been provided have been provided

Action Items

- ☐ [Michela Bevilacqua](#) , [Liam Fallon](#) : progress Rel H discussion in Control Loop Subcommittee to decide which components could be uplift to ONAP mainstream and further details Rel H ambitions
- ☐
