Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company's legal counsel. Members of the LF may contact Andrew Updegrave at the firm Gesmer Updegrave LLP, which provides legal counsel to the LF.

Minutes

Lifecycle services [Jim Baker](#)

- [Jim Baker](#) talked about the explicit services available for projects at each lifecycle state.
 - When talking about Program Management, [Jason Hunt](#) recommended that we add some specific tasks that the team will provide at each lifecycle state.
 - [Morgan Richomme](#) Discussion of using [Tern](#) to scan docker repos - POC underway in ONAP - recommendation for a preso at the Feb. event.
 - When discussing [LFX](#), a demo was requested for the TAC. [Brandon Wick](#) noted that there is a planned webinar in February. Brandon will share with the TAC more information when available.

Demos & Events

- [Brandon Wick](#) talked about updating and setting expectations for the LFN Demo Program.

- [Slides](#)
- Our demos have had a lot of success and visibility. In an effort to continue to improve the experience, we plan on moving all demo tooling from the projects to the LFN Infrastructure. We are also adding a 5G radio for use in the Montreal lab for E2E and RAN demos.
- Planning stages for ONES NA demos in progress now.
- Brandon also noted that we will encourage demo outputs to be contributed back to project repos & releases.
- There will also be a focus in 2021 to find a balance of community participation and demos.
 - [Morgan Richomme](#) reinforced the point that community participation should be prioritized when selecting demos and that those demos & non-commercial code should be contributed to the upstream community.
- Developer & Testing Form 01 Feb 2021 - 04 Feb 2021
 - [Registration](#) (free)
 - [Topic Proposals](#) due by 15 Jan 2021

Inclusive Language working group

- The current meeting series has been canceled. TAC will plan a new series of meetings in early 2021 and look to see how we can best collaborate with other initiatives happening at the Linux Foundation and in Open Source.

Other Topics

- OPNFV will be having an [appreciation meetup](#), at 7:30a PST, on 17 Dec 2020
- XGVela will be submitting their induction proposal for TAC review on 13 Jan 2021
 - Please review the proposal beforehand. It will be published and sent to the TAC mailing list around 01 Jan 2021

Action items

- ☑ Morgan Richomme add demo on tern as a cross community session 2021 February LFN Developer & Testing Forum
- ☑ Casey Cain & Brandon Wick to followup with the TAC in January with Community demo governance recommendations.
