

2021-02-02 - TF deployers and CI

Topic Leader(s)

- [Alexandre Levine](#)
- [Andrey Pavlov](#)

Topic Overview

TF has a significant variety of methods to deploy it. Developing and maintaining all of them with a small team is a task which requires a great deal of automation. This presentation will give an overview for the existing TF deployers and describe the TF CI and set of devtools created to handle them.
