2021-02-01 - Plenary: XGVela Answers to Frequently Asked Questions

Topic Leaders

- **Qihui Zhao Seshu Kumar Mudiganti** @**Sandeep Karkala** @**Azhar Sayeed**

Topic Overview

As a new open source project which implements telco cloud native PaaS, XGVela has collected a lot of valuable questions asked by the community. In this session, the XGVela team will give answers to those questions to provide a clear view of this project. Questions will cover: will the project scope cover CNCF on General PaaS? Is there any overlap with ONAP? What PaaS functionalities do you have? What is the status of the seed code? How to join this community? What is the governance structure of this community?
