

2021-02-02 - ONAP: E2E Network Slicing Use Case - Recap and Future Plans

Topic Leader(s)

- [LIN MENG](#)
- [Swaminathan Seetharaman](#)

Topic Overview

There will be 3 topics under this session:

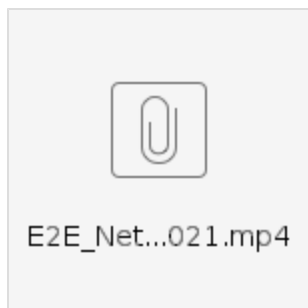

1. <Guilin recap and Honolulu plans> contents will concentrate on what we have done in Guilin release and what aspects we are going to enhance in Honolulu and future releases;
2. <Modeling> Overview of modeling work in Guilin and Honolulu releases.
3. <E2E Slicing demo show based on Guilin deliverables> This part will show the integration test result of Option 2 which is CSMF+NSMF+External RAN NSSMF +Internal TN NSSMF +External Core NSSMF.
