# 2021-02-02 - TF Architecture Overview

### Topic Leader(s)

Szymon Krasuski

## **Topic Overview**

TF architecture is spread across multiple components that make TF as a whole solution customizable for multiple use cases. This presentation will give a wide perspective on high-level TF architecture and what are responsibilities of individual components in a complex TF system.

## Slides & Recording

#### Minutes

- History of Contrail, OpenContrail, Tungsten Fabric
- Tungsten Fabric architecture
  TF Config the brain of the platform
- TF Control the one in control
- TF vRouter the vRouter agent and forwarder
- TF Analytics monitor and log everything
- Tungsten Fabric with Kubernetes

#### Action Items
